

National-Louis University Human Subjects Research Policy
AP: 303 (041790)

Recommended: Faculty Senate Date: March 7, 1990
Approved: President's Cabinet Date: April 17, 1990

EFFECTIVE DATE: APRIL 17, 1990

After reviewing a number of policies on the protection of human subjects, the ad-hoc Human Research Ethics Committee of the Faculty Senate recommended that the Code of Federal Regulations published by the Office for Protection from Research Risks (OPRR) be adopted by National-Louis University as institutional policy (see appendix). These regulations mandate the formation of an Institutional Review Board and provide specific guidelines for the types of research activities which are subject to review.

The policy will be administered by the Office of Academic Affairs.
